

IN THE DRAWINGS:

Please amend and replace Figure 2 with the enclosed replacement figure.

REMARKS

Please enter the above amendment prior to issuing the present application as a patent. This amendment does not introduce any new matter or raise any new issues.

The specification has been amended at paragraphs [0027] and [0029] to correct a minor error in the reference numerals, to be consistent with Figure 1.

Figure 2 has been amended to correct two minor errors, in particular, to change reference numeral "16" to "14" and to change the label "Post processing entity 90" to "Pre-processing entity 90", to be consistent with the text.

These errors would be readily apparent to those of ordinary skill in the art.

Also, claims 10 and 16 have been amended to correct their dependencies, and claim 12 has been amended to add a period (".") at the end of the claim.

The above amendments are made only to place the present application in better form and are not necessary to comply with any statutory requirement of patentability.

If there are any additional charges/credits, please charge/credit our deposit account no. 02-2666.

Respectfully submitted,
